# Managing Uncontrolled Symptoms

## Alternate Care Settings

Should you develop uncontrolled symptoms that cannot be addressed in your current residence, your hospice benefit includes General Inpatient Level of Care, which is provided in an alternate care setting, such as a hospice inpatient unit or skilled nursing facility. In order to continue receiving hospice care from MJHS Hospice and Palliative Care (MJHS-PC), you must be at a MJHS-PC contracted facility.

This section includes the most current list of alternate care settings that MJHS-HPC is contracted with. Please complete the **Inpatient/Skilled Nursing Preference Form** in this section to predetermine where you would prefer to be transferred, should this level of care be needed. In the event of an emergency we will do our best to transfer you to the unit or facility of your choice.

If your symptoms become unmanageable, don't panic: **STOP** and call one of our 24/7 numbers:

- **Brooklyn: (718) 921-7900**
- **Queens and Nassau: (516) 239-2400**
- **Manhattan and the Bronx: (212) 649-5555**

A nurse or physician will immediately evaluate your symptoms to see if a General Inpatient Level of Care is best for you.

You can decide to receive care from a hospice or facility not contracted with your MJHS-PC for symptoms related your hospice diagnosis by revoking your hospice benefit or assuming responsibility for any fees or changes related to the care provided.
